WALL STREET NEWS

Slight Falling Off Noted in Street Activity.

ly bought for a long time, and the man-agement of the company this afternoon aunounced an issue of stock of £200.000. half of which was to be sold at 110, and the remaining portion given as a benus

Gas Dividend Predicted.

The impression continued to prevail that Consolidated Gas stock is moving along toward an enlraged dividend distribution, even if this event may not perhaps take place at the next meeting of the direc-tors called for dividend action. In the case of National Biscult common, it is onsidered practically certain that the dividend on the stock will be raised from a to 7 per cent before the end of the month, and there are some reasons for thinking that perhaps an extra distribu-tion may also be made. There have long been indications, based

there have long been indications, based on the past year by the Southern Railway Company, that a resumption of dividend declarations on the company's preferred stock is reasonably near at hand. The rise in Tennesses Copper was explained by the announcement that the company has made a very fourthly one of the company has made a very fourthly entire the company has made a very fourthly entired.

General Market Improves.

Perhaps no one of these considerations o-day was of sensational nature, yet no one of them was unfavorable to the tock market as a whole, and all of them pointed to a bettering of the general business prospect. The financial

Most of the day's call loans were made Must of the day's call loans were made at 25 per cent, and before the close of the day money was but at 12 per cent, the first time in five months that so low a rate has been quoted.

Despite, however, that rather firmer way fit which money has lately been held in London, sterling rates at this center have continued to drop.

All signs were teclary, of course, for nother splendid bank statement to-morrow. Bankers were inclined to look for an increase in the reserve in the neighborhood of \$2,000,000 or \$10,000,000.

SMAIL NET CHANGES CAUSED

General Tendency of Market, However, Is Still in an Upward Direction and Broadening Character in Activities is Shown-leading Stocks Practically Neglected.

New York, Jan. 22.—The falling off to-day in stock market activity was accompanied by small net changes in the price of shares. The tendency of the market was, however, in an upward direction; and its best feature was, perhaps, that despite the contraction in the quantity of the dealings, the market displayed a broadening character.

The three feading stocks. Steel, Union Pacific, and Reading, were comparatively perfected, and their price held within an exceedingly narrow range throughout the day. On the other hand, there were movements of a decided sort in the Southern Railway common and preferred shares and in Consolidated Gas, American Beet Sugar, Tennessee Copper, Amalgamated, National Bircuit common, and one of two specialities, such as North American and La Clede Gas.

It may be that dealings in these particular shares were all the to special reasons. La Clede Gas stock has been strong shought for a long time, and the market was been strongly bourght for a long time, and the market may be that dealings in these particular shares were all the to special reasons. La Clede Gas stock has been strongly bourght for a long time, and the market may be that dealings in these particular shares were all the to special reasons. La Clede Gas stock has been strongly be bought for a long time, and the market may be that dealings in these particular shares were all the to special reasons. La Clede Gas stock has been strongly be bought for a long time, and the market may be that dealings in these particular shares were all the to special reasons amounced an issue of stock of £2,00,000.

And the second of the suparacter of the company this afternoon announced an issue of stock of £2,00,000.

WEEKLY REVIEW OF TRADE DAILY COURT RECORD

Financial Conditions Show Marked Improvement, and Trade Distribution Becomes More Active in Many Centers.

"Improvement in financial conditions has been a marked development in the tle more freely in consonance with the past few days, and to some extent has progress of the season, but the improvepast few days, and to some extent has been accompanied by a more active trade

bonds, especially by institutions; the New York City bond issue seems to be favorably received and an accretion of strength is shown by the securities market. This improvement is reflected also in the more encouraging aspects of the iron and steel market. Conferences have been held by cotton goods manu duction, but on the other hand the wee shows a better wholesale and retail dis tribution and the export trade has been especially good during the past two nonths, Increased orders are also reported in the shoe market, imparting greater confidence to the trade.

"A more optimistic feeling prevails in iron and steel, recent developments en-couraging hopes of a more active bust ess, although current improvement is by

"Commercial failures this week in th United States are 25, against 34 last week, 26 the preceding week, and 26 the corresponding week last year. Failures in Canada number 35, against 34 last week, 23 the preceding week, and 23 last

NEW YORK PRODUCE.

New York, Jan. 30.—BUTTER—B. MO packages. The market is ste-pecials, per lb., SI; creasury extra

New York, Jan. 20.-R. G. Dun & Co.'s New York, Jan. 39.-Bradstreet's re-

say:
"Trade undercurrents are running a litment is neither widespread nor marked distribution, although the industrial contraction of the last half year is still in evidence. The bank statements report a larger supply of available money, though the England still maintains its few exceptions, principally in the South, agree that trade is not better than fair to good.

"At the moment jobbers are busy on early springering and wholesale cards."

"At the moment jodgers are busy on early spring shipments and wholesale trade has not as yet assumed an active appearance. In fact, buyers are still displaying a conservative attitude, preferring apparently to buy frequently rather than in large volume at any one

rather than in large volume at any one time.

"This disposition, taken in conjunction with the fact that stocks must be light, augurs well for a healthy undertone, but pending price readjustments for which buyers seem to be waiting, trade movements tend to be sporadle. Retail trade is quiet in most sections, save in the South, where the high price of cotton has made for a better supply of money and improved collections.

"In industrial lines little in the way of improvement has developed. On the one hand there is a better demand for lumber about Southern ports for dealers are active, farm machinery is in good request, and builders' hardware is in demand, but profits in these lines are scanty.

"Reference in these lines in forest by

further weakness in pig iron, by contin-ued duliness in the steel trade in gen-eral, by quietness in and curtailment of leather output, and by the widespread demand, North and South, for a further reduction in cotton mill production."

The Safest Investments Are those that do not fluctuate during dis-turbed conditions of the money or stock man-leta. First deed of trust notes (first morta-ages), well accured on real estate in the Dis-tract of Columbia, constitute "gill-tedge" in-vestments. They do not depend upon the fluctuation appearship of individuals or cor-porations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$30 upward. Send for booklet, "Concerning Loans and Investments."
